1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the research and the objectives of the study. It also provides a brief overview of the methodology used in the study.

2. The second part of the report is a detailed description of the data collected during the study. It includes a table of the data and a discussion of the results. The data shows that there is a significant correlation between the variables studied.

3. The third part of the report is a discussion of the results of the study. It compares the results with the findings of other studies and discusses the implications of the results. It also provides some suggestions for further research.

4. The fourth part of the report is a conclusion. It summarizes the main findings of the study and provides some final thoughts on the subject. It also includes some recommendations for future research.

1. Introduction

The purpose of this study is to investigate the effects of various factors on the growth and development of the human body. The study was conducted over a period of 12 months, involving a group of 100 participants. The data collected was analyzed using statistical methods to determine the significance of the findings. The results of the study are presented in the following sections.

The first section of the study focuses on the physical growth of the participants. This includes measurements of height, weight, and body mass index (BMI). The data shows that there is a significant increase in height and weight over the 12-month period. The BMI values also show a slight increase, indicating that the participants are gaining weight at a rate consistent with their height gain.

The second section of the study focuses on the development of the participants. This includes measurements of bone density, muscle mass, and lung capacity. The data shows that there is a significant increase in bone density and muscle mass over the 12-month period. The lung capacity also shows a slight increase, indicating that the participants are developing their respiratory system.

EVERGREEN GRAFTS

SPRING 1942 DELIVERY

CHANDLER
LANDSCAPE AND FLORAL CO.
101 WEST 47TH STREET KANSAS CITY MO.

WHY OUR GRAFTS ARE THE BEST THAT CAN BE GROWN

They are made by expert labor only.

Made on strong thrifty understock with proper root growth established in 2½ inch pots.

Made with long young scions.

Proper heat and ventilation to insure proper callousing.

These are only a few of the reasons why Chandler's Grafts make such rapid growth when lined out in the field.

DIRECTIONS FOR PLANTING - Plant directly in the field after freezing weather is over. Have soil well prepared. Remove rubber bands and plant only deep enough to cover the graft union.

CULTIVATION - Be sure to keep a dust mulch in dry weather, never allowing the ground to become hard and baked.

TIME OF SHIPMENT - These Grafts are ready in March but we would advise waiting until freezing weather is over before making shipment.

PRICES - Our prices are reasonable. Thirty of the same variety are priced at the 100 rate, 300 at the 1000 rate.

WE ALLOW 3% DISCOUNT AND BOXING FREE WHEN CASH ACCOMPANIES THE ORDER.

T R E E S

Our trees are listed at Bare Root prices. Most trees $3\frac{1}{2}$ to 4 inch and up in caliper should be balled and burlapped to be moved successfully. Elms may be moved at the proper time of year bare rooted, up to and including the 4 to 5 inch size. All trees transplanted during the winter when the ground is frozen, should be moved with a ball. Pin Oak, Birch, Magnolia, Ilex, Flowering Peach and a few other varieties should be moved with a ball regardless of the season.

The extra charge for balling, if required, on the smaller sized trees is as follows. Planting will be charged additional at 25% of the Bare Root or List price of the trees.

3 to 4 ft.	\$0.25
4 to 5 ft.35
5 to 6 ft.50
6 to 8 ft.65
8 to 10 ft	1.00
$1\frac{1}{4}$ to $1\frac{1}{2}$ in.	1.25
$1\frac{1}{2}$ to 2 in	1.50
2 to $2\frac{1}{2}$ in	2.00
$2\frac{1}{2}$ to 3 in	2.50

The additional charge for Balling and Burlapping the larger size trees includes also the price of planting in Greater Kansas City, as follows:

3 to $3\frac{1}{2}$ in	\$3.00
$3\frac{1}{2}$ to 4 in	4.00
4 to 5 in	6.50
5 to 6 in	7.50
6 to 7 in	10.00
7 to 8 in	12.50
8 to 9 in	15.00
9 to 10 in	17.50

Extra labor which might be necessary in case we encounter objectionable material such as rock, which must be removed before the planting can be done, will be furnished at the rate of 75¢ per hour.

ALL PRICES AND LABOR CHARGES SUBJECT TO CHANGE WITHOUT NOTICE.
